### Guidelines for Oral and e-Poster Presentations

#### Scientific Sessions (Oral):

- Each presenter will be given a total of 10 minutes which includes 8 minutes of presentation followed by 2 minutes of question-and- answer session.
- PowerPoint slides should be used in conjunction with the presentation.
- File format: please save your PowerPoint presentation as a .pptx file.
- Font size: minimum 24 points, preferably 26.
- Limit the number of lines of text used per slide - easier for viewers.
- The PowerPoint presentation should not exceed 12 slides (including the title slide)

#### Scientific Sessions (e-Poster):

- Each presenter will be given a total of 5 minutes which includes 4 minutes of presentation followed by 1 minute of question-and- answer session.
- Design your e-Poster in PowerPoint (PPT), all information must appear within **ONE slide only**. Under Design, choose Slide Size: “Custom (A4 paper - Width 27.51 cm, Height 19.01 cm)” with a **landscape** (horizontal) orientation. All the information (i.e., text, data, photos, and figures) must be designed to appear within one window.
- Use a font size of a minimum of “13” for the contents and a minimum of “14” for the title in the poster.
- Save your PPT into **PDF** format.
- The e-poster should have the **poster code** (eg: KSBSP001) on the left-hand top corner.
- **Title** of the e-Poster (should match with the submitted abstract), names and affiliations of all authors [each author to be marked with superscript Arabic number (such as 1, 2)] with their corresponding institute affiliation must appear at the top of the poster.
- The title and subheadings should be written in bold. Italics should be avoided as it would be harder to read from a distance.
- e-Posters shall be displayed in the poster rooms of the conference for one entire day. However, it is mandatory for the presenters to be available (the scientific presentation schedule will be informed at the venue) for discussion during the time allotted for E-poster evaluation.

#### IMPORTANT NOTE:

- **The deadline for submitting e-Posters and Oral Presentation Slides is November 20, 2024.**
- **Please send your submissions to ishaksb16sci@gmail.com. Failure to submit your e-Poster or Oral Presentation Slides by the deadline will result in the cancellation of your presentation.**
- **As stated in the Call for Papers notice:**
  - **Students and professionals from outside Kerala are not required to be ISHA-KSB members to present scientific papers.**
  - **Associate Membership is necessary for other professionals who are authors or co-authors of scientific papers being presented at the conference; lack of membership will disqualify the paper from being presented.**
  - **The presenting author must register for the conference to be eligible to present their scientific paper.**
